A FLUSH VALVE **Zurn Elkay**

The Zurn HydroX Power flush valves and faucets with EZ Gear technology are engineered for style and performance. These fixtures help meet sustainability goals with minimal environmental impact. The technology generates renewable hydropower with each use, ensuring uninterrupted efficiency. Paired with EZ Gear technology for simple maintenance, these faucets and flush valves offer durable, vandal-resistant construction and compatibility with the plumbPRO Bluetooth app for customizable settings.

B SNOWPLOW **Hilltip**

The SnowStriker VTR snowplows are designed for compact tractors and loaders. These v-plows feature heavy-duty box construction to withstand the harshest winter conditions. Available in six models ranging from 5.5 to 8.6 feet wide, these snowplows have a curved, powder-coated snow blade to create an optimal snow-rolling effect. The blades are made of high-strength steel, helping to make the plows light, yet durable.

C DRAIN CLEANING **General Pipe Cleaners**

The Sewerooter T-4 is a mid-size drain cleaner that unclogs three-inch to six-inch diameter lines up to 100 feet long. It carries 100 feet of $\frac{3}{16}$ -inch Flexicore cable for more torque than traditional $\frac{1}{2}$ -inch cables. The variable speed power cable feed and guide tube offer safety and control, reducing whipping and drag. Its fold-down handle, stair climbers, and 10-inch wheels makes it easier to transport and store.

D BOTTLE FILLER **Sloan**

DropSpot bottle fillers offer an elegant design with stainless steel or black powder-coated finishes, useful for any commercial setting. These fillers feature accessible filters, providing safer drinking water by meeting NSF61 standards. Optional 3,000-gallon filters reduce PFOA, PFOS, lead, chlorine and other contaminants, ensuring clean water. The bottle fillers are compliant with NSF 53, NSF 42, and NSF 401 standards.

E DOOR HARDWARE **Vizilok**

The ADA-door lock with indicator features a user-friendly one-touch lever designed for occupants with physical challenges. The Satin Chrome finish complements a variety of décor, making it useful for commercial settings like medical practices, hospitals and retirement communities. The patented design combines ADA functionality with an all-in-one visual indicator lock, displaying "IN USE" or "VACANT" when locked or unlocked.

F INDOOR AIR QUALITY **R-Zero**

RESET-certified IAQ MONITOR and connected dashboard helps facility managers visualize and act on IAQ data on demand. The solution is designed for application in offices, schools and healthcare facilities to inform how indoor environments support occupant comfort, operational performance, including HVAC fault detection and energy use.

G IMPACT WRENCH **DEWALT**

The 20V MAX XR $\frac{3}{4}$ -inch High Torque Impact Wrench (DCF964) provides more torque for use in tough applications. It features a glass-filled nylon housing to help protect against oils and solvents. Other features include PRECISION WRENCH mode, which helps prevent overtightening and fastener run-off, and a four-mode push button switch to change speeds and LED brightness.

H FIRE-RATED DOOR **Clopay Corporation**

The fire-rated counter door is offered under the Cornell and Cookson brands which features fire and smoke protection in compact designs with an array of color choices. The Models ERC10 and ERC11 offer a small footprint for counter fire door, and the ERC11 model features the SmokeShield package with smoke gasketing integrated into the guides.

I PUMP
Armstrong Fluid Technology

The Design Envelope Tango compact, low-carbon dual pump includes two motors and two impeller assemblies in a single casing. Integrated valves can isolate one side of the pump for service, without interrupting flow or affecting occupant comfort. New sizes are available with motors ranging from 15 to 40 horsepower and can serve applications up to 2,000 GPM or 160 feet of pressure.

J WATER HEATER
A.O. Smith

The POU electric tankless water heater does not require venting, making it a useful fit for a variety of applications that need immediate hot water on site, including lavatories, isolated sinks, emergency fixtures, boosters and more. The unit is also equipped with continuous dry fire protection, which prevents it from firing without water in the system.

K MOWER
Ignite Attachments

The Sickle Bar mower provides reliable cutting capabilities in all types of multi-grass lawns. The double-bladed tooth system cuts forage cleanly in all conditions. The mower also features an anti-vibration system that extends the life of cutting blades and reduces maintenance needs. The mower can be angled to allow for safe operation when mowing embankments, ditches, around ponds or other sloped surfaces, and for vertical pruning applications.

L EXTERIOR LIGHTING
Synapse Wireless

The DIM10-087-06-IP lighting controller is a simple-to-use control option for bolt-on field retrofit applications. It is designed to perform even in harsh weather conditions, ensuring reliable operation across various settings. Its smaller footprint allows it to be integrated with LED drivers that lack embedded lighting controls, providing a seamless and effective solution for outdoor lighting needs.
