59 | ELVARI COLLECTION

BRADLEY CORP.

This collection of stainless steel accessories is designed to unify and elevate design in any commercial washroom space. With over 650 individual products, Elvari delivers a cohesive yet sophisticated aesthetic, while its maintenance-enhancing technology makes it an asset to facility management, with easy-to-read refill indicators, magnetic locking, and anti-slam operation.

60 | DIVERSE SINK SYSTEM

EXCEL DRYER

This sink system integrates hand washing and drying into one fixture, enhancing user convenience and reducing water drips on the floor. Equipped with an eHEPA Filtration System, the hand dryer removes 99.99% of viruses and 99.97% of

bacteria from the airstream. Customizable options for finishes, colors, and materials allow the sink system to match any décor.

61 | TOP MOUNT EXPOSED SENSOR FLUSH VALVE

ZURN ELKAY WATER SOLUTIONS

This sensor flush valve for water closets requires no hard wiring or battery replacement. The gear-operated flush valve generates and stores power from the source: the water flowing through the fixture. Its ceramic cartridge is less susceptible to debris and buildup. Heavy-duty construction with a polished chrome finish provides durability and vandal resistance.

62 | UPDATED SENSOWASH U

DURAVIT

This integrated shower toilet has an updated design that moves select

features to the top of the fixture for easy access during servicing and maintenance. The toilet automatically shifts into energy saving mode when not used for 24 hours. Rimless Technology rinses the entire surface of the bowl using the least amount of water possible after each use.

63 | SLOAN DROPSPOT

SLOAN

This line of bottle filters and water coolers is designed to provide safe drinking water with a modern design to suit any commercial environment. Three configurations are available in stainless steel or black powder-coated finish options: on-wall bottle filler, on-wall bottle filler with single-level cooler, and on-wall bottle filler with bi-level cooler. Its filter meets standards related to reducing health and non-health related contaminants.
